Seymour Lights did not solicit any donations

To the Editor:

My wife, Rebecca, and I want to thank each and every person who shared their holiday season with us by taking time to come by and view our Christmas lights display.

It's such a wonderful feeling to know that we're able to share a little Christmas spirit with so many people. We will be back next season with an even bigger and better show.

On a related note, I have received reports that someone was outside the house soliciting donations for the lights. Please know that Rebecca and I would never ask for donations. The Seymour Lights display is our little Christmas gift to the community and the smile on a child's face is worth every penny and all the time that go into putting on the display.

The person or persons asking for donations had no permission from us to do so and we were shocked to learn that someone would do such a thing. We would like to apologize to
